The Pathfinders Program

Pathfinders Adventure Camp is a summer day camp for middle school aged youth (rising 6th graders through rising 9th graders). Our goal is to provide engaging activities and an atmosphere that promotes our core values: **Respect, Responsibility & Readiness**. Through a combination of adventure and traditional camp activities, we strive to offer our campers a unique way to experience their summer.

Our program offers activities that allow our campers to challenge themselves physically and mentally; work cooperatively with others; and learn specific adventure, athletic and artistic skills. Everyday, campers are given the opportunity to choose their own adventure. Campers have opportunities to challenge themselves hiking, mountain biking or rock climbing. For the artistic types we offer a diverse arts & crafts activity and culinary arts. For the athletes we have a wide range of sport offerings, including: basketball, street hockey, soccer, volley ball & ultimate Frisbee. We encourage all of our campers to try all of our activities to broaden their perspective and experience.

We are always looking to expand our programming to further enrich our campers' experience. We are proud to work with several local partners: CrossFit Stamford, BETA Climbing & Fitness, Rock Climb Fairfield, Fairgate Farm, Greenwich After School Archery & the Stamford YMCA. Our partners have been a big part in our ability to improve and expand our program.

Each week our campers have the opportunity to do so many activities. In addition to the many activities, Pathfinders Camp also provides lunch. Limited scholarships are available on a first come, first served basis.

Pathfinders Adventure Camp Summer 2018
